

**Understanding Internet Protocols
A Hands-On Approach**

**J. Mark Pullen
Department of Computer Science
George Mason University
Fairfax, Virginia**

**Published by John Wiley & Sons January, 2000
ISBN 0-471-35626-3**

Table of Contents as of 9-6-99

- Preface
- 1. The Internet Protocol Stack and the Network Workbench
 - a. the language of networking
 - b. the protocol stack?
 - c. Network Workbench basics
 - d. hands-on activities
- 2. Wide-Area Network Topology
 - a. networks and topologies
 - b. practical topology matrices
 - c. hands-on activities (project WAN1)
- 3. Data Link Control I: Framing
 - a. the physical layer
 - b. what is data link control?
 - c. framing
 - c. hands-on activities (project DLC1)
- 4. Data Link Control II: Error Detection
 - a. error detection methods
 - b. hands-on activities (project DLC2)
- 5. Data Link Control III: ARQ Flow Control
 - a. what (and why) is ARQ?
 - b. link initialization
 - c. point to point protocol (PPP)
 - d. hands-on activities (project DLC3)
- 6. Local Area Networks I: Ethernet
 - a. what is Ethernet?
 - b. how does Ethernet work?
 - c. hands-on activities (project LAN1)
- 7. Local Area Networks II: Token Passing
 - a. token LAN mechanisms
 - b. major token passing LAN protocols
 - c. bridging
 - d. hands-on activities (project LAN2)
- 8. Network Layer I: the Internet Protocol
 - a. Internet Addresses
 - b. Routing in the Internet
 - d. hands-on activities (project WAN2)
- 9. Network Layer II: Exchanging Routing Data
 - a. what is a routing protocol ?
 - b. Internet routing protocols
 - c. NW routing protocol (project WAN3)
- 10. Reliable Transport
 - a. what does a transport protocol do?
 - b. functions of TCP
 - c. reliable transport in the Internet
 - d. reliable transport in NW
 - e. hands-on activities (project TRN1)

11. Network Layer III: Multicasting and Multimedia
 - a. What is multicasting?
 - b. multimedia protocols
 - c. multicast protocols
 - d. hands-on activities (project WAN4)
12. Application Layer Servers
 - a. the client-server model
 - b. some important Internet services
 - c. hands-on activities (project INT1)
13. Network Layer IV: Security and Firewalls
 - a. security principles
 - b. how firewalls work
 - c. hands-on activities (project INT2)
14. Putting it All Together: the Integrated Stack
 - a. your own mini-Internet
 - b. hands-on activities (project INT3)

APPENDICES

- A. Network Workbench vs the Real Protocol
- B. Installing the Network Workbench
- C. Network Workbench Header File nw.h
- D. Using This Book with Networking Textbooks
- E. Resources

Glossary
